

Delegation Name: Turkiye

Ambassador Name: Duru Ölçer

Dear delegates, Student Officers, Advisors, and the Executive Committee of the Turkish International Model United Nations,

I would like to begin this speech by saying that it is a great honor to serve as the ambassador for the delegation of Turkiye in TIMUN 2024.

One of the most discussed topics in today's fast-changing global economy is the uncertain future of traditional industries and changing labor dynamics in the digital economy. As we transition into an era defined by technological innovation, automation, and artificial intelligence, countless industries face disruption, leaving millions of workers vulnerable to job displacement, economic inequality, and societal instability.

From the factories that form the backbone of industrial heartlands to the farmlands that feed the populations of entire nations, traditional livelihoods are increasingly under threat. While the transformation is inevitable, it requires thoughtful approaches to ensure that economic progress may not come at the cost of human dignity, equity, and opportunity.

Therefore, at a time when political turmoil is so profound, safety and order should be of most importance in keeping with this year's theme, which is "The Uncertain Future of Traditional Industries: Labor in the Digital Economy". We should do this by promoting policies for sustainable economic growth, investment in workforce reskilling, and inclusive frameworks for technological advancement.

We, as the delegation of Türkiye, hereby confirm our firm commitment to addressing these challenges with resolution and cooperation. We further believe that through dialogue, sharing technological expertise, and building resilient economies, the road will be opened to a more equitable and prosperous future for all.

Let this conference be used as a platform to present discussions and devise new solutions in order to make sure that the transformation of labor in the digital economy serves the interests of not just a few, but all of humanity.
